

Harshavardhan Raja

ML Engineer - 6+ Years Experience

Phone: +91-8008823497 | Email: harshaiitg97@gmail.com | LinkedIn: linkedin.com/in/harshavardhan-raja | GitHub: github.com/HarshavardhanRaja

Professional Summary

Results-driven ML Engineer with over 6 years of experience in developing end-to-end ML pipelines, data engineering, and cloud-based AI solutions. Specialized in deploying scalable models using Vertex AI, KubeFlow, with expertise in MLOps, feature engineering, and integrating machine learning into production systems for applications in healthcare, IoT, and demand forecasting. Demonstrated success in ensuring data quality, model accuracy, and operational efficiency. Certified GCP Professional Data Engineer and Cloud Architect.

Professional Experience

Senior Data Engineer | Sequoia, India | September 2024 - Present

- Led the design and implementation of a secure data processing module using Python, AWS S3, and MongoDB to decrypt, extract, and store encrypted files in JSON format, improving data availability for ML analytics by 30%.
- Extended data pipelines to support ML feature engineering and inference with Apache Beam and Pandas, reducing model retraining time by 25%.

Senior Associate | BlackBuck Insights, India | December 2021 - May 2024

- Built and managed end-to-end ML pipelines integrating Airflow DAGs, Vertex AI, and GCP Cloud Run, reducing forecasting errors by 20%.
- Streamlined model deployment with Docker, CI/CD, and MLflow, accelerating deployment by 40%.
- Implemented monitoring with Datadog, improving system uptime to 99.9%.

Associate Consultant / Engineer (ML and Data Focus) | Virtusa, India | July 2019 - December 2021

- Reduced escalation percentage from 60% to 20% by implementing ML anomaly detection on GCP pipelines.
- Built ETL pipelines for migrating 100 TB of data to cloud, enabling ML-driven insights.
- Developed CNN model for pneumonia detection, improving classification accuracy by 15%.
- Built IoT pipelines with Terraform and PyTorch for predictive analytics integration.

Education

Degree	Institute/Board	Score	Year
B.Tech - Chemical Science and Technology	IIT Guwahati	6.25 CGPA	2019
Senior Secondary	Board of Intermediate Education, A.P	93%	2015
Secondary	Board of Secondary Education, A.P	9.8 CGPA	2013

Technical Skills

Programming Languages: Python, SQL

Machine Learning: Linear Regression, Logistic Regression, Decision Trees, KNNs, Vertex AI, TensorFlow, PyTorch, Scikit-learn, CNNs, MLOps (MLflow, Feature Stores, CI/CD)

Cloud Providers: GCP (BigQuery, Dataflow, PubSub, Looker Studio, Cloud Run, Composer), AWS (S3, Lambda), Azure*

Data Warehouses/Databases: BigQuery, Snowflake, MongoDB, MySQL, MS SQL Server

Libraries/Tools: Apache Airflow, Apache Beam, FastAPI, Pandas, NumPy, KubeFlow, Terraform, Git, Datadog, Fivetran, Docker

Miscellaneous: ETL Pipelines, IoT Integration, Data Preprocessing, Model Deployment

Training and Certifications

GCP Professional Data Engineer (ID: 3517bc701f4d45cea592e572e62f7dfd)

GCP Professional Cloud Architect (ID: iOGVW8)

Achievements

- Virtusa V-Energiser for the month of May 2021
- Earned Top Performer Bonus for excellent performance in 2020-21
- Recognized as Top Talent for H2 FY21 and awarded silver coin in appreciation
- Received BBI's Core Value Award for Q3 of 2023
